

Boeing and Nvidia Become OptTek Customers

Boulder, CO, February 17, 2004 – The Boeing Company and NVIDIA Corporation recently became customers of OptTek Systems, Inc. Both customers will be licensing OptTek's OptQuest® optimization software to support highly sophisticated projects and activities internal to their companies' operations. Boeing's use of the software will be managed by their Boeing Phantom Works Mathematics & Computing Technology. NVIDIA's multi-user license will enable the firm to conduct research across multiple platforms. "Providing the optimization engine for research and development applications with two high profile customers increases our visibility significantly," stated Dr. Jay April, OptTek's Chief Development Officer.

About The Boeing Company.

The Boeing Company provides products and services to customers in 145 countries. Boeing has been the premier manufacturer of commercial jetliners for more than 40 years, and is a global market leader in military aircraft, satellites, missile defense, human space flight, and launch systems and services. Total company revenues for 2003 were \$50.5 billion. Phantom Works is the R & D unit of the company. Boeing's website is www.boeing.com

About NVIDIA Corporation

NVIDIA® Corporation is a market leader in visual computing technology dedicated to creating products that enhance the digital media experience on consumer and professional computing platforms, from desktops and workstations to notebooks and handhelds. The company's graphics and communications processors have broad market reach and are incorporated into a wide variety of computing platforms, including consumer PCs, enterprise PCs, professional workstations, digital content creation systems, military navigation systems and video game consoles. NVIDIA's website is www.NVIDIA.com.

About OptTek Systems, Inc.

OptTek Systems, Inc. is a Boulder, CO based optimization software and services firm. From its inception in 1992, OptTek has become the leading provider of optimization software to simulation companies and employs state-of-the-art techniques based on many years of research in the area of optimization, in which OptTek's founders are internationally recognized leaders. OptTek specializes in developing and customizing its software to enable solutions for business problems characterized by significant uncertainty and complexity. OptTek's software is used by hundreds of firms including Fortune 500 companies for diverse applications including customer relationship management, financial and strategic planning, logistics and transportation, and telecommunications.
